Classes that have been nonconducted or cancelled or rescheduled have been excluded

### Course Scope:

The Warrior Leader Course (WLC) is branch immaterial. The conduct of the course takes place in an NCO Academy non-live-in environment in accordance with the small group instruction process. It consists of minimal classroom dynamics and practical application with an intense field training environment that involves hands-on, performance-oriented training. The course graduates leave equipped with standards-based, performance-oriented, battle-focused training that supports squad level operations. It provides the Army with a leader who can visualize, describe, and execute squad level operations in varied operational environments. It is a leader course that produces a predictive, adaptive, and innovative combat leader capable of leading Soldiers in any situation. The instructional design and methods of delivery consists of face-to-face instruction, learner-centered outcomes, based on today's contemporary operational environment, and used to reinforce all small unit tactics, techniques, and procedures. The course incorporates recent lessons learned, 9 battle drills, 39 warrior tasks with the inclusion of weapons immersion, a 36-hour situational training exercise (STX), and an evaluated Land Navigation Course. The STX centers on competency, battle focused combat scenarios, and troop-leading procedures. Evaluation centers on their ability to demonstrate troop-leading procedures in current threat-based scenarios that will enhance their 360-degree assessment.
